

K-LOVE provides me with the opportunity to hear Christian music daily. Families in Dayton can listen to clean, quality programming. If we lose our signal, people will lose a link that helps them feel part of a larger group of caring people. K-LOVE brings together people to connect to each other in a positive way. We deserve the chance to listen to this programming offered by listener-supported stations. Please do not change the rules. We need as much uplifting programming as possible.
